PRACTITIONER NETWORKING DIRECTORY: 18 APRIL 2018 UPDATE

This list is offered to enable students to network with others in their area, who may have done courses at different times. It contains those who have done CST2 and above, and lists additional courses in the UI curriculum that people have taken.

- **This list and people's details within it are expressly not to be used for any other purpose.**
- We aim to keep this list as updated as possible. Therefore, if you are on it and any details change, please let us know.
- Current versions will be available, password protected (contact us for the password), on the website (Resources page)
- When using this list to find or to refer to participants, please note that The Upledger Institute is not responsible for their professional standing. Any questions of professional standing are a matter for the individual and their qualifying body. Upledger training is postgraduate, so the symbols below represent each practitioner's core therapy.
